

Inglewood High tamariki take to OffshoreWind4Kids

June 11, 2023

Thanks to Inglewood Highschool for the invitation to host an OffshoreWind4Kids (OFW4Kids) demo day in partnership with our friends at Atlas Professionals.

The akonga at Inglewood High are learning about what a healthy future would look like for Taranaki. The training module called Your Taranaki examines what is sustainable vs unsustainable and looks at renewable energies like onshore wind, geothermal, solar and offshore wind.

BlueFloat Energy New Zealand and Elemental Group Limited are proud sponsors of OffshoreWind4Kids and love having the opportunity to teach out tamariki about offshore wind and let them have a go a building their own turbines. If you think you kura would like their own demo day then please don't hesitate to get in touch with us.
